Thank you for volunteering to help clean up Ockanickon Scout Reservation! We wanted to give you some pre-arrival instructions:

- Registration will begin at 8:00 AM at Foster Hall. We must know who is here so everyone needs to register. If you signed up on line, please print out your ticket for us to scan. This will get you registered quicker. We will immediately assign you to a task so you can get started. Plan to park in the parking lot and leave your tools there until you know your assignment.

- Please bring a lunch and beverage. Bottled water will be available.

- If you are highly trained in chain saw use and you have your own saw, we need you. Please be aware of the safety equipment that you **must** have: Chaps, Gloves, Eye Protection and Ear Protection. We highly recommend Helmet/hard hat, face shield and protective shoes.

- Ockanickon will not have chain saws available. We need you to bring bow saws and hammers from home.

- If you agreed to bring a log splitter, we are counting on you to do so. We will set up a location for you to work once you arrive.

- Most of this weekend work consists of trimming and moving brush into piles, stacking logs, cutting up down trees and some light carpentry platform repairs.

- There are 5 damaged or destroyed Adirondack structures. These structures are under insurance review and are dangerous. We need to stay clear of them.

- The work party will end at 3:45. If you need to leave sooner, please sign out at Foster Hall.

- Should you have any additional questions, please e-mail Bill Mischke at: bmischke@bsamail.org.

Thanks again, see you this weekend!
